Capital-Raise Target List

Tier 1–4 named targets · Pre-existing institutional relationships · Outreach cadence rules.

ROUND USD \$5M priced equity · AU-domiciled

DATE May 2026

HONG KONG · SYDNEY · SAN FRANCISCO · LONDON · CHANNEL ISLANDS

©2026 Futureproof Financial Group Limited · All Rights Reserved

Use these as both: (a) credibility on slide 10 / teasers, and (b) potential warm-intro paths into the capital-raise targets below.

Confirmed institutional partners (live)

- **Accenture** – Global Collaboration Partner & Approved Business Intermediary (US). Gives us channel access to top-tier financial-institution clients (Macquarie, AMP, Westpac, Barclays, Lloyds, HSBC Private Wealth, etc.) – and likely to **Accenture Ventures** as a strategic capital-raise angle.
- **Jones Day** – Global Legal Partner (US). Sponsor of the Silicon Valley Fintech Accelerator; networked into US VC / family-office community.
- **BlackRock** – Product Co-Design Partner (passive index ETF allocation). Single largest institutional warm-intro asset we have. May also be a strategic LP source via BlackRock Alternatives.
- **SpiderRock Platform** – Product Co-Design Partner (dynamic hedging collar execution).
- **Atlas SP / Apollo** – Product Co-Design Partner. **Apollo is a major institutional capital-markets investor** – strategic angle for Series A or capital-markets warehousing.
- **PWC, Lockton** – Product Co-Design Partners.
- **EY** – Non-US regulatory partner.
- **Colin Biggers & Paisley Lawyers, Dentons** – Non-US legal / regulatory partners.

In active negotiation

- **PIMCO** – US Global Platform Partner (in negotiation). Large institutional fixed-income manager. Strategic-investor angle.
- **Lockton Reinsurance, Gallagher Re** – US Platform Partners (in negotiation). Tail-risk transfer for the EPM portfolio.
- **Munich Re** – Non-US Global Platform Partner (in negotiation). Strategic-investor / reinsurer angle.
- **Macquarie** – Non-US Global/Regional Platform Partner (in negotiation). **Note:** also appears in Tier 3 below as a strategic-backup candidate; treat as one combined relationship.
- **Asia Insurance Company** – Non-US Platform Partner (in negotiation).

Recognition / accelerator network

- **Silicon Valley Fintech Accelerator (FinAccelerate, powered by Jones Day)** – 2023 cohort. Gives us network access to US VC and family-office circles via Jones Day's sponsorship and the FinAccelerate alumni network.

Existing capital-raise advisors / contacts

- **Mike Spidaliere** (FTFC) – mike@ftfc.co – investor contact on briefing deck. Confirm scope of relationship (advisor, broker, or capital introducer).

- **Max Goldberg** (Gold Capital Consulting) – max@goldcapitalconsulting.com – capital consulting. Confirm scope.

Action: Map each of the above into the warm-intro paths in Tier 1 / Tier 2 / Tier 4 columns below. The Accenture, Apollo, BlackRock, PIMCO, and Munich Re relationships are unusually high-leverage for a seed-stage raise – treat them as distinct from typical "founder LinkedIn graph" warm intros.

Tier 1 – Single Family Offices (anchor candidates)

These are the cheque-writers. Goal: 4–6 warm intros, 1 anchor at USD \$1–2M (or AUD-equivalent for ESVCLP-qualifying AU investors via the parallel AU sub-tranche).

#	Office	Principal(s) / Key Contact	Why fit	Warm intro path	Status	Notes
1	Skip Capital	Scott Farquhar	Atlassian co-founder; backs fintech & specialty finance; tech-literate, will engage with the model directly	[]	Cold	Strong fit. Active investor.
2	Grok Ventures	Mike Cannon-Brookes	Mission-aligned bets; retirement framing as social good fits the office's identity	[]	Cold	Climate-heavy but mandate is broader.
3	Wingate	(verify current investment principal)	Has financial services PE arm; understands structured products and lending economics	[]	Cold	Most directly relevant on credentials.
4	Lederer Group	Joseph Lederer / family	Property-heavy portfolio; the home equity narrative resonates with their core thesis	[]	Cold	Property-adjacent angle is the hook.
5	Myer Family Investments	(verify current CIO)	Multi-generational; patient capital; understands long-duration retirement story	[]	Cold	Generational fit is the angle.
6	Victor Smorgon Group	(verify)	Diversified, financial services exposure, comfortable with structured products	[]	Cold	
7	Escor (Smorgon family)	(verify)	Same family network; sometimes co-invest with VSG	[]	Cold	Approach via VSG relationship.
8	Salteri family	(verify)	Lower profile but long-term, structured-product comfortable	[]	Cold	Hard to access without warm intro.

#	Office	Principal(s) / Key Contact	Why fit	Warm intro path	Status	Notes
9	Jagen (Lieberman family)	(verify)	Financial services exposure, multi-asset	[]	Cold	
10	Besen family / Highpoint	(verify)	Property + financial services; retirement angle resonates	[]	Cold	
11	Tattarang	Andrew & Nicola Forrest	Less likely for fintech; mission angle (retirement dignity) could land	[]	Cold	Long shot. Don't lead with this.
12	[INSERT – your existing investor relationships]					

Verify principals before sending anything. Investment leads at family offices change every 18-24 months. A 2-minute LinkedIn check before each outreach prevents an embarrassing "Dear [former MD]" moment.

Tier 2 – Multi-Family Offices & Wealth Platforms (the secret weapon)

Each of these represents 50-200 underlying family clients. **One yes from a platform = pre-vetted access to dozens of principals.** Highest leverage in the entire process.

#	Platform	Key team / desk to target	Why fit	Warm intro path	Status	Notes
1	Crestone Wealth Management	Alternative Investments / Private Markets desk	~150 family clients, ex-UBS team, sophisticated; retirement income is on their radar	[]	Cold	Highest priority Tier 2.
2	Koda Capital	Private Markets team	Independent, retirement-focused HNW clients, founders ex-JBWere	[]	Cold	Cultural fit is strong.
3	Mutual Trust	Investment team	Multi-generational family office services; long-duration thinking	[]	Cold	
4	JBWere	Private Investment Office	NAB's HNW arm; sophisticated; institutional process	[]	Cold	Slow process, but credible.
5	LGT Crestone	(verify post-LGT acquisition structure)	International depth, AU local relationships	[]	Cold	Confirm current entity name.
6	Escala Partners	Investment desk	Independent, growing platform	[]	Cold	
7	E&P Financial Group (ex-Evans Dixon)	Private Wealth	Distribution to retail-HNW	[]	Cold	Reputational baggage; weigh carefully.
8	Pitcher Partners	Private Wealth	Mid-market family office services	[]	Cold	
9	Ord Minnett	Private Wealth	Long-established, conservative HNW base	[]	Cold	
10	Morgans Financial	Private Client	Distribution into self-directed HNW	[]	Cold	

Tactic for Tier 2: Don't pitch to land a single client. Pitch to get the deal *on their alternative-investments shelf* – then they distribute to clients on your behalf. One platform yes can syndicate A\$3-5M.

Tier 3 – Strategic Backups (parallel track, not primary)

Keep these warm but don't make them your main game until Phase 3. The Challenger conversation is the most asymmetric – high upside, low downside if handled right.

#	Organisation	Team to target	Why fit	Warm intro path	Status	Notes
1	Challenger Limited	Strategy / M&A team	A\$100B AUM in retirement income; publicly acknowledged home equity gap	[]	Cold	Frame as "scouting", do not share model.
2	TAL	Innovation / strategic investments	Major AU life insurer; longevity expertise	[]	Cold	
3	MLC Life Insurance	Strategic	Life + retirement	[]	Cold	
4	Generation Life	(CEO / strategy)	Investment bonds & retirement focus	[]	Cold	Smaller but very aligned.
5	Aware Super	Direct Investments / Innovation	Large super fund; Retirement Income Covenant pressure	[]	Cold	Strategic + LP angle.
6	AustralianSuper	Innovation / Strategy team	Largest super fund; under most Covenant pressure	[]	Cold	
7	HESTA	Super Round Capital	Health/community super; values-aligned	[]	Cold	
8	HostPlus	Venture program	Has direct fintech investments	[]	Cold	
9	Cbus	Investments	Construction industry super, large balance sheet	[]	Cold	
10	NAB Ventures	Investment team	Bank venture arm, retirement-product interest	[]	Cold	

#	Organisation	Team to target	Why fit	Warm intro path	Status	Notes
11	ANZi (ANZ Ventures)	Investment team	Bank venture	[]	Cold	
12	x15ventures (CBA)	Investment team	CBA's venture arm	[]	Cold	
13	Reinventure	Partners	Originally Westpac; now independent fintech-focused	[]	Cold	
14	Macquarie Capital / Macquarie Group	Strategic team	Already in negotiation as a non-US Platform Partner – natural progression to strategic investor. Also a top-tier distribution target via Accenture channel.	[Existing]	In negotiation as platform partner	Highest-leverage strategic in this tier.
15	Apollo Global Management	Strategic / private credit	Atlas SP/Apollo is already a Product Co-Design Partner. Apollo's private-credit franchise is a natural fit for capital-markets warehousing economics.	[Existing]	Product co-design partner	Approach via existing co-design relationship – strongest pre-existing US strategic angle.
16	PIMCO	Strategic / fixed income	Already in negotiation as US Global Platform Partner. Strategic-investor angle.	[Existing]	In negotiation	

#	Organisation	Team to target	Why fit	Warm intro path	Status	Notes
17	Munich Re Ventures	Investment team	Munich Re already in negotiation as non-US Global Platform Partner. Strategic-reinsurer angle.	[Existing]	In negotiation as platform partner	Munich Re Ventures is the dedicated venture arm.
18	Accenture Ventures	Investment team	Accenture is our Global Collaboration Partner; Accenture Ventures invests in fintech startups in the Accenture client ecosystem	[Via Accenture relationship]	Cold	Lowest-friction strategic-VC route on the list.

Tier 4 – Fintech / Insurtech-specialist VCs (parallel track)

Per [PLAN.md](#) the dual-track approach treats fintech-specialist VCs as a parallel track alongside FOs (not just post-anchor fillers). Lead with the honest-disclosure block (slide E1 / [teaser_vc.md](#)) on the first call.

Use existing institutional partnerships (Accenture, BlackRock, Jones Day, Apollo, PIMCO) as proof points – they are the credibility moat that lets a Tier-A specialist take the meeting seriously.

Tier-A: fintech / insurtech / longevity specialists (approach actively)

#	Fund	Stage / Cheque	Why fit	Pre-existing leverage	Status
1	Square Peg Capital	Seed / Series A, A\$2-10M	Fintech mandate, AU-led, regulated-fintech precedent (Athena)	Athena precedent helps; via portfolio-founder warm intro	Cold
2	Anthemis (London)	Seed / Series A	Insurtech / longevity is core thesis. Best international fit.	Munich Re / Lockton / Aviva network overlap	Cold
3	QED Investors (US/UK)	Series A+, US\$5-25M	Fintech specialist; lending / mortgage-adjacent track record	Accenture + Jones Day FinAccelerate alumni	Cold
4	AirTree Ventures	Seed / Series A, A\$1-10M	Engages on AU institutional / super-fund angle	Use Accenture-channel super-fund pipeline as proof	Cold
5	King River Capital	Series A, A\$2-10M	Cross-border, financial services exposure		Cold

Tier-B: generalist (warm intro only, with sharpened deck)

#	Fund	Stage / Cheque	Approach
6	Blackbird	Seed / Series A	Generalist; only via portfolio-founder warm intro
7	Carthona Capital	Seed / Series A, A\$1-5M	Fintech-friendly
8	Five V	Growth	Sometimes does fintech adjacent
9	OIF Ventures	Seed, A\$500K-3M	AU-focused, generalist

Tier-C: do not approach now (wrong fit)

Pure SaaS / consumer-app generalists, seed funds <A\$50M AUM, crypto/Web3-thematic funds. Pitching them now burns the relationship for the eventual Series A.

Late-stage / Series A bridge (parallel tracking)

#	Fund	Stage	Why fit	Status
10	Bailador Technology Investments	Growth, A\$3-15M	Late-stage; for Series A+	Cold
11	Perennial Partners	Pre-IPO / late stage	If raise extends beyond family office capacity	Cold
12	Regal Funds Management	Various	Listed-strategy adjacency	Cold

CRM hygiene – track these per contact

For every person on this list, maintain:

- Name, role, firm, email, mobile, LinkedIn
- Warm intro path (named connector + their email)
- Date intro requested → date intro made → date 1st meeting
- Status (see legend above)
- Notes from each touch (date-stamped, 1-2 lines)
- Next action + due date
- Pass reason (if passed) – these are gold for the next round

Tools: Affinity (best for relationship-driven raises but expensive), Streak (Gmail-native, free tier works), or a structured Google Sheet. The tool matters less than the discipline.

Outreach cadence rules

1. **Never approach Tier 1 cold.** Always warm intro. A cold email to a single family office burns the contact for 12 months minimum.
2. **You can approach Tier 2 platforms semi-cold** if you have a credible angle (e.g., "we'd value 15 minutes to share how the Retirement Income Covenant is reshaping the alternatives shelf"), but warm intro converts 5-10× better.
3. **Tier 3 (strategics) – go via known sponsor inside the org.** A cold email to a corporate strategy team rarely lands.
4. **Tier 4 – only after anchor.** Pitching VCs without an anchor signals you as desperate and inexperienced.

5. **Never run more than 2 anchor candidates in parallel at "term sheet ready" stage.** Family offices talk. They will find out, and they will both pull.
6. **Quarterly update list:** every "pass" goes on a quarterly investor update list. ~30% of family offices come back for the next round once they've watched you execute for 6-12 months.
